Company Profile

Sesame Technologies Pvt. Ltd. is a leading IT company based in Kerala, India which started its journey way back in the year 2000. When looking back today, we have a commendable and successful track record in providing IT solutions and services to an array of our customers across the globe.

We have to our credit more than 1100 successful projects and 550+ clients from multiple verticals for our un-matched and competent solutions in web, analytics, Bespoke development & consulting with a geographical spread in India, US, UK & Middle East.

Team Sesame with a capital base of sharp skills, lucid vision, and strong values is all set to be a forerunner in the IT industry.

“ We never sell solutions, we solve customer pains..!

With our vast expertise of 21 years in providing IT solutions for various business establishments in multiple domains, we can give you the right kind of solutions on Analytics, Web, Bespoke development, Consulting etc.

Our core focus areas

Team Sesame mainly focus on 4 areas and they are Web solutions, Analytics, Bespoke development and Consulting.

Analytics

**Web
Solutions**

**Bespoke
Development**

Consulting

Analytics Solutions

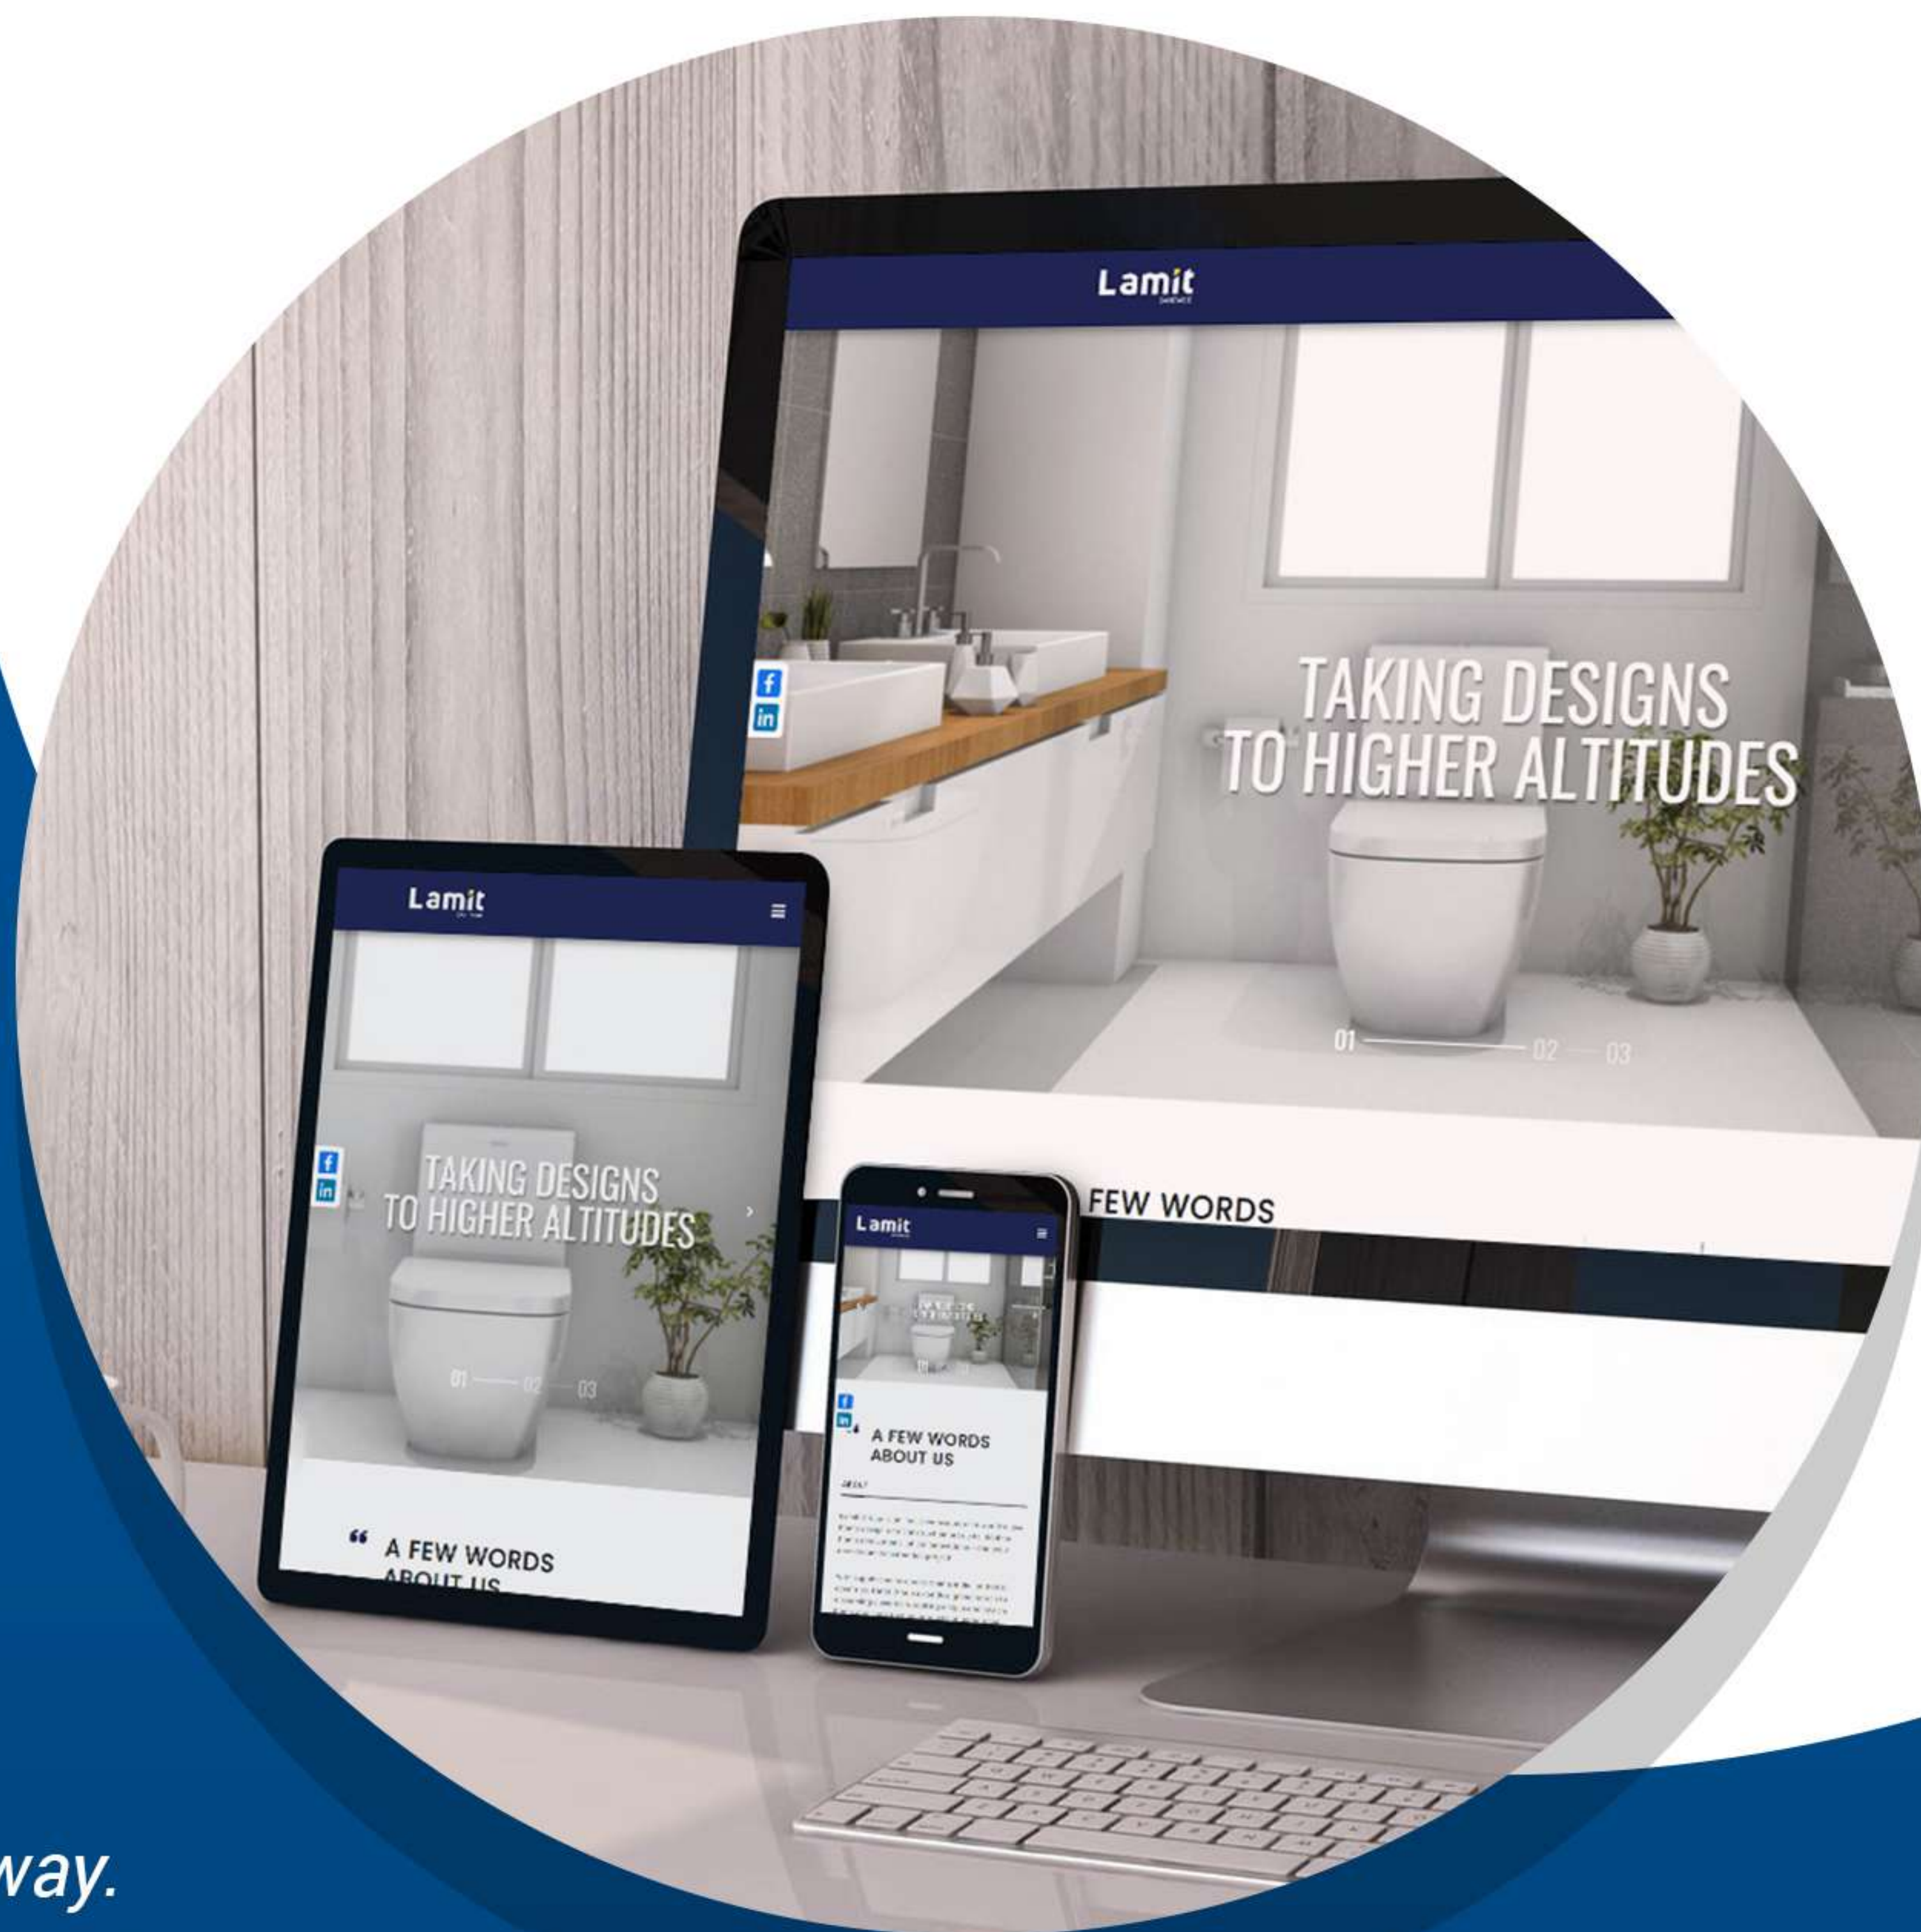

Our expertise in data analytics is to set up an analytics layer on top of any business application software which will help decision-makers to make decisions based on data rather than making decisions from assumptions.

We also have the expertise on pulling data from multiple data bases and to put them in a central warehouse for processing and finding insights out of it. As we all know, going forward data will be the fundamental fuel to take all kinds of businesses to the next level.

“Data is what you need to do analytics. Information is what you need to do business.”

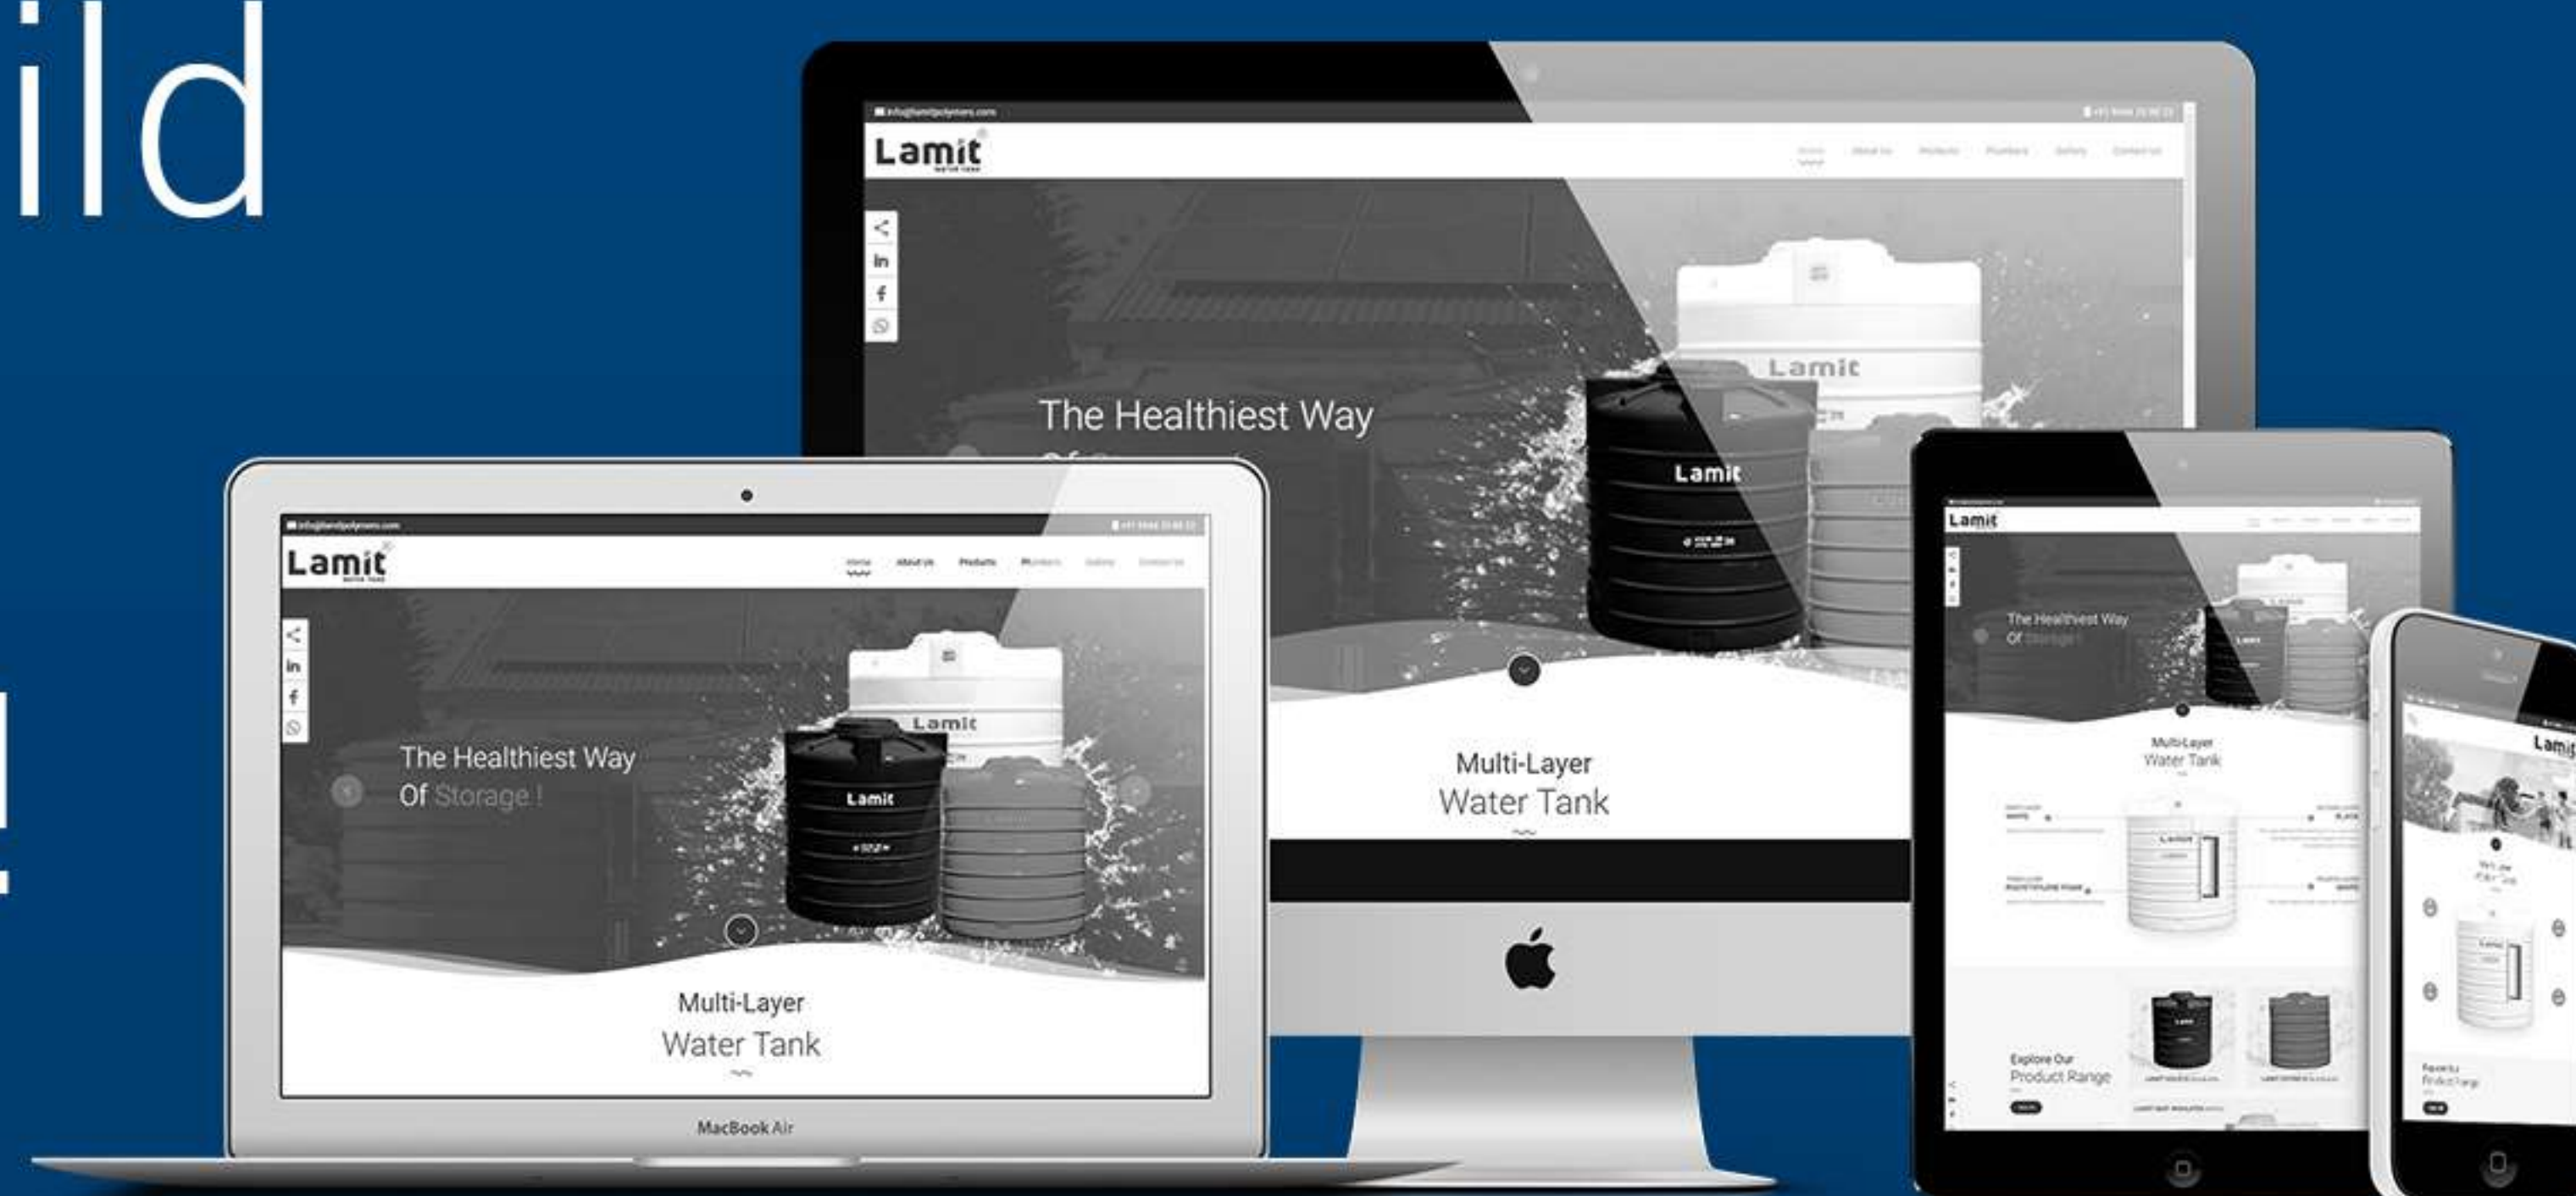

Web Solutions

We provide a-z of web solutions required for any kind of business, in a professional and technically competent way. Our web solutions are authentic and match the industry standards and best practices which assures a professional and dependable virtual identity for our customers. We never do things just for the sake of doing it, but we do everything for benefiting our customers.

“ We don't just build websites, we build websites that sells !

Bespoke Development

Our customized solution development team is capable enough to study the exact customer pain and to suggest & develop the best fit solution to solve it. Our expertise in developing more than 100+ customized solutions help us to say confidently that we can simply solve your business pain by providing the best tailor-made solution.

“ Custom built software to suit your business needs.

Consulting

When business owners are confused about how to blend technology with the business for taking their business to the next level, it's clear that only experts can guide them in the right way. With our vast expertise of 21 years in providing IT solutions for various business establishments in multiple domains, we can give you the right kind of consultation on the technology side. For SMEs who are looking for a professional consultation without burning their pockets, we will be the best choice for them.

“ Sharing our knowledge acquired by doing more than 1100 successful projects within a time span of 21 years.

"Thank you for your team for making an excellent website to portray my business activities. And happy that you stick to the time frame, even after some delays from my side."

Muraleemanohar, Managing Partner
Farm Tech Consultancy

"The website is perfect, thank you Sesame"

Favas. K, Branding Officer
Lamit Group

"Recently I had reached out to Sheen for putting up a website the objective of which was to showcase Indian Industrial AI companies to customers in San Francisco, Berlin, Tokyo, Geneva, Houston and Norway. The resulting website has been extremely well received by the likes of Amazon Robotics, Shell, ABB, Siemens, Mercedes Benz, Airbus etc."

Derick Jose, Co-founder - Flutura Monetizing
Flindustrial AI in Energy + Engineering Industries

“ Helping our customers succeed their business !

550 + customers from various verticals and across the Globe have already trusted us and started their journey with us by depending on various solutions provided by our master brains.

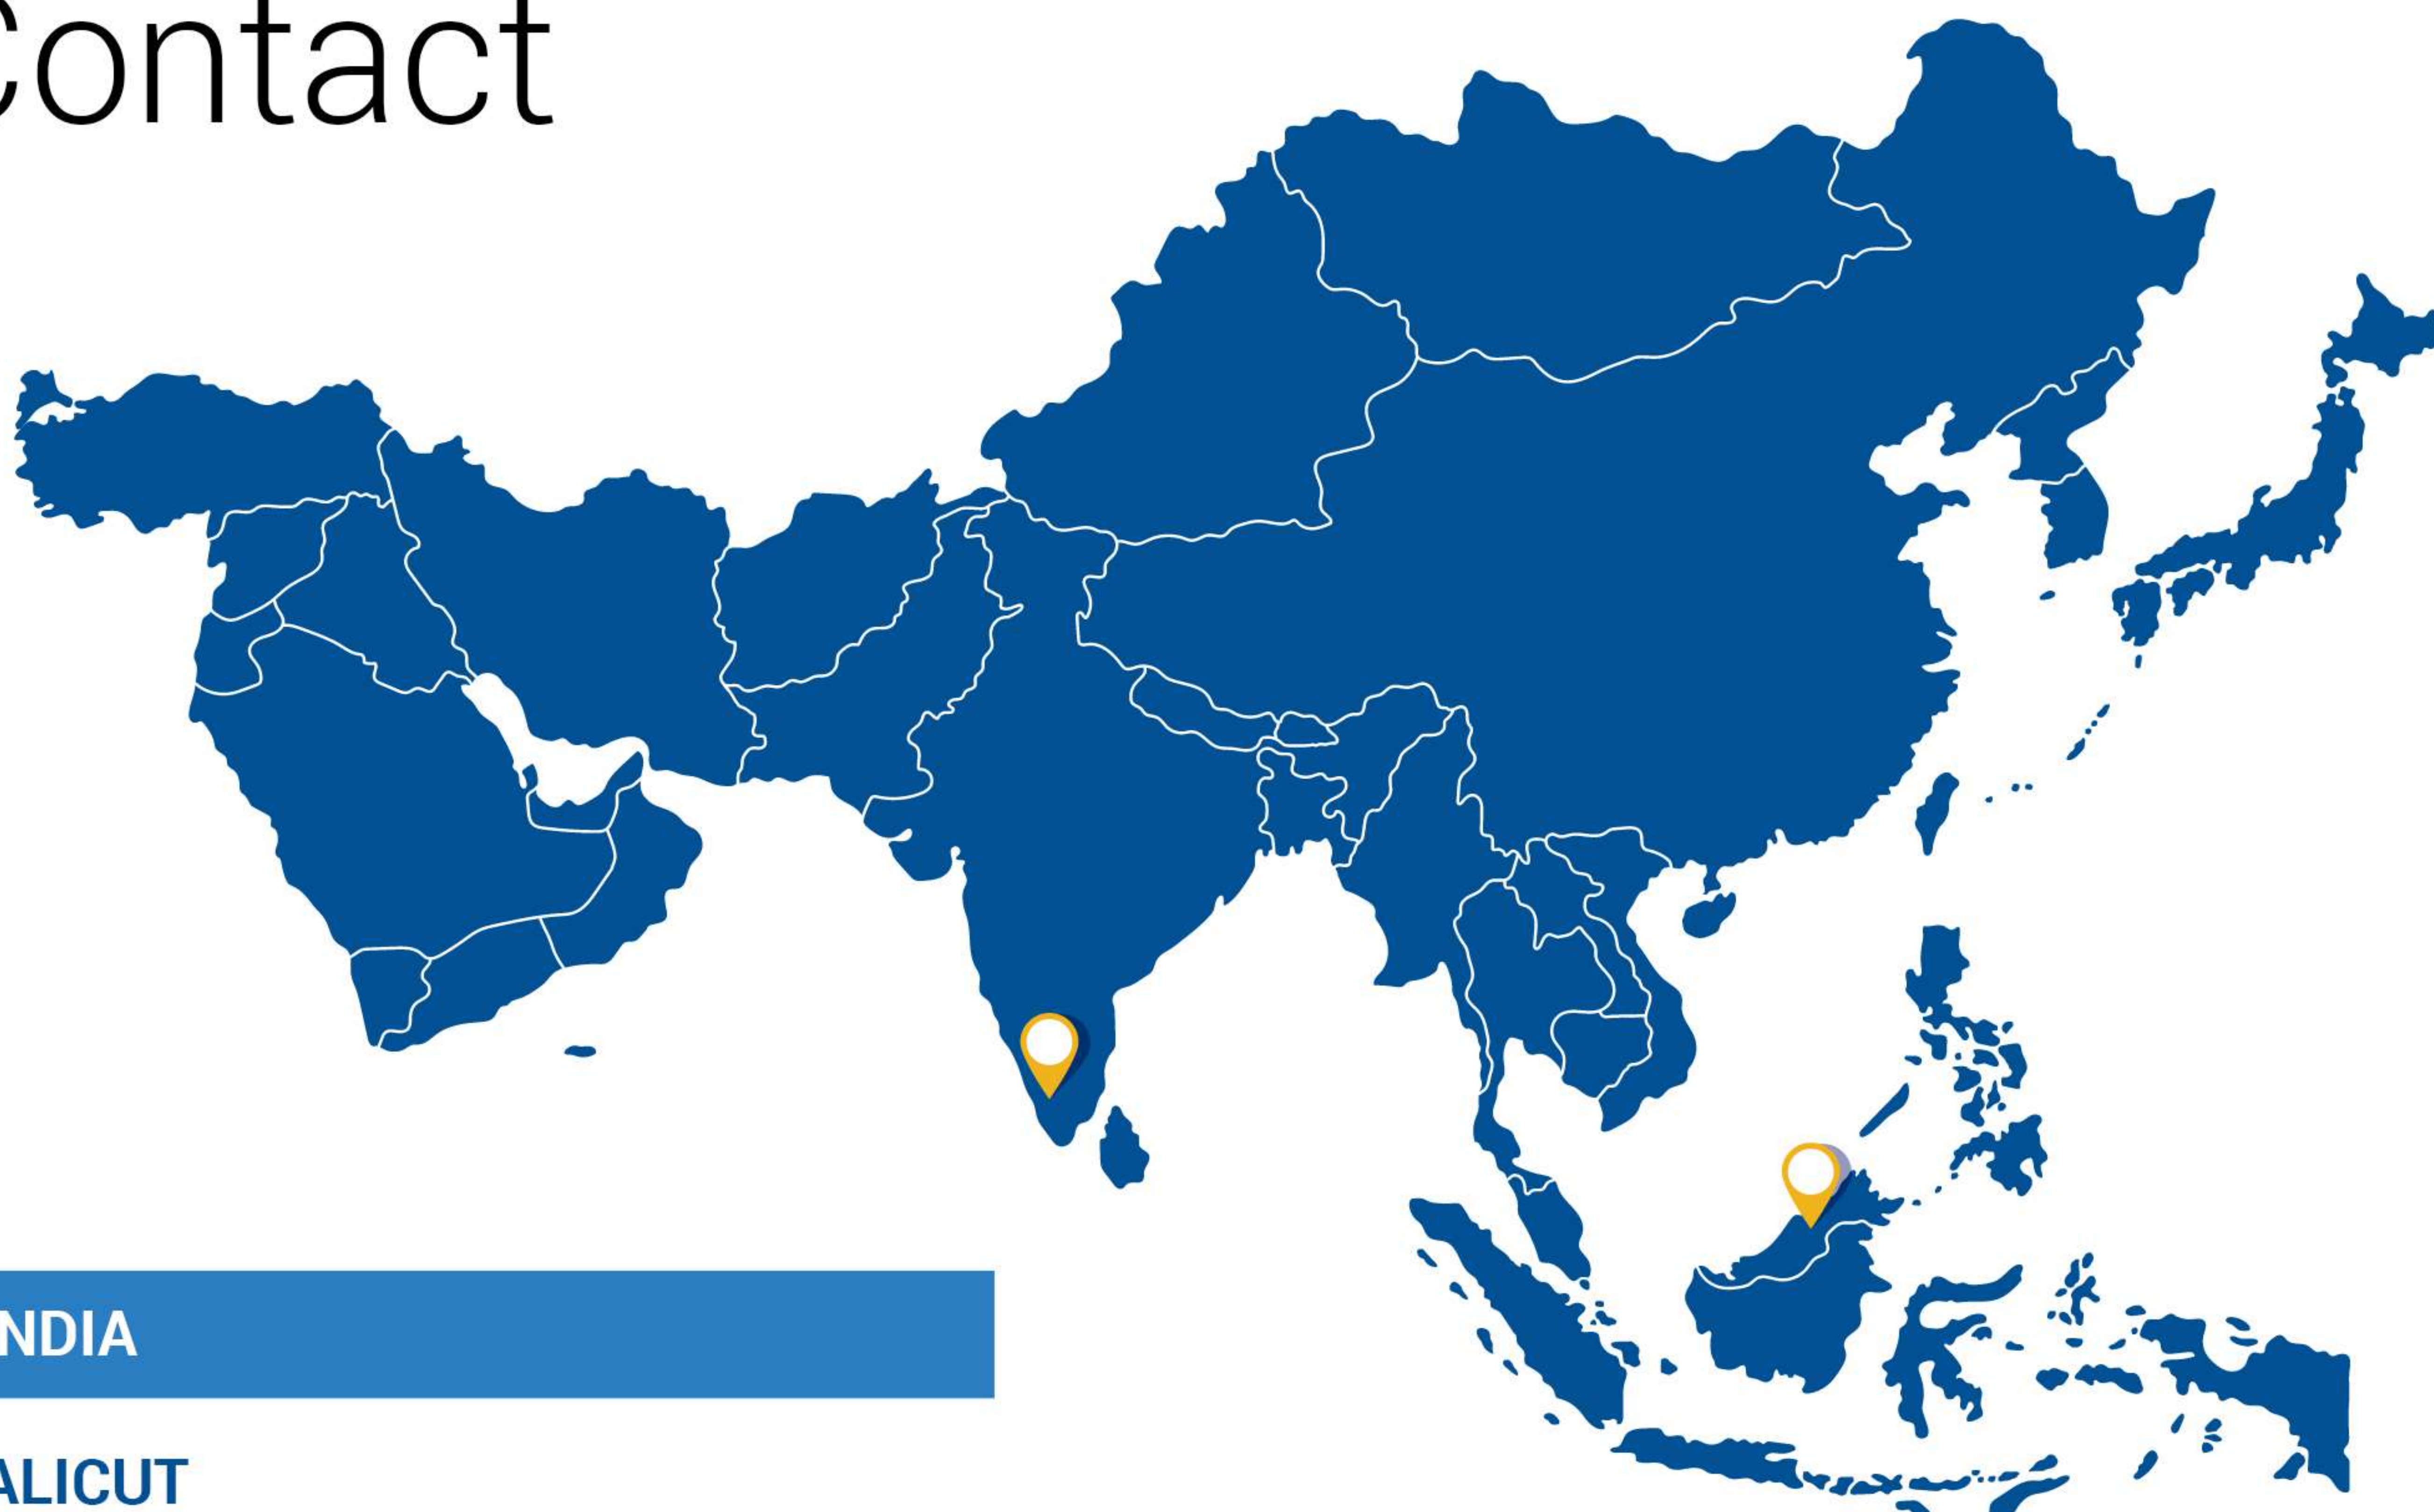

A dynamic team with dedicated and highly skilled professionals, a set of well-defined processes and methodologies help us to deliver better than the best for each of our customers.
